

We make

BIG

IDEAS

EASY!

The biggest **testament** to our quality and service comes from **our clients**. We are proud to have assisted in creating stunning displays for clients nationwide.

“XL Digital has been doing a fantastic job for us for years. Great quality, great pricing and always on time. They are a joy to work with.”– Bob D.
New York, NY | Design House

“Working with XL Digital is a seamless and efficient experience in all the best ways. It’s as though I have a large format printer as part of our company - I send the work, the work gets done to perfection and is delivered, usually well ahead of the deadline. I’ve never considered a vendor to be irreplaceable but these folks are exactly that.”– Chris L.
Austin, TX | Advertising Agency

“XL Digital is truly one of those rare companies. They partner with us in achieving high quality and time-sensitive materials. They are a valuable partner in our day-to-day business. The entire staff is first-rate and customer service friendly. We are pleased and fortunate to have such a great vendor partner.”– Jack P.
National Exhibit and Decorating Company

Our History... The turn of the millennium was a momentous time. Just as the world was about to enter a new era, so was grand format digital printing.

XL Digital opened its doors in 2002 with big plans for the future, and even bigger plans for delivering superior quality, and high performance products. As we enter our second decade we've nearly tripled in size and our client base has expanded even beyond our expectations.

And the future? Well... it's looking pretty grand.

Raj Persad
President

No matter how

BIG

The Challenge

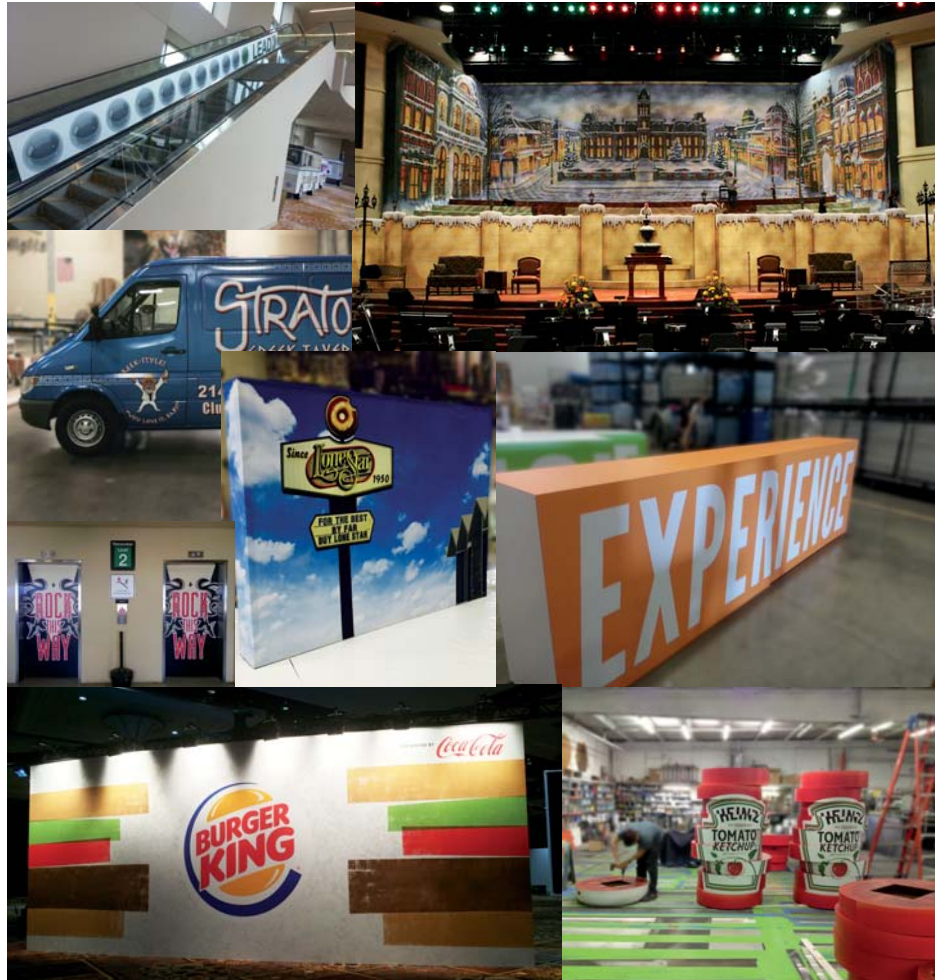

XL Digital Imaging can make your project larger than life. Need a thousand backlit transit signs? Want to wrap a building or create signage 10 stories high? Have an idea that no one has ever done before? As digital printing specialists in both grand and large formats, the only thing the XL Digital team loves more than meeting a challenge is exceeding it. When it comes to big jobs, we know – image is everything.

Products

Indoor, outdoor, mounted, lighted or sky high ... we can help you manage your project from the ground up, literally. Our team can help determine the best materials to achieve your goals, create a plan to simplify the most complex of projects, even assist with conceptualizing new ideas and inform you of emerging trends to keep you on the forefront of your communications.

- Floor Graphics
- Fabric Graphics
- Window Graphics
- Retail POP/In-Store Graphics
- Backlit Displays

How **WIDE** the distribution

Dye Sublimation

We can now apply your full color graphics to many different fabric types and polymer-coated substrates for both indoor and outdoor use. Dye inks allow for a wider color gamut, brighter and more vibrant colors than conventional inkjet. The combination of dye inks and fabrics play directly to the senses, with eye appealing rich colors and the touch and feel of high-end quality. Fabrics can also be finished in many ways, including silicone edges (SEG) that can be easily snapped into frames, light boxes and displays for quick set-up or change out. Fabrics are generally lighter weight and can be folded without creasing, leading to lower shipping cost and ease of transportation. Dye sublimated fabrics are also odorless and more environmentally friendly, making them more suitable for schools, hospitals and malls.

How

TALL

The Order

Services
